In News18, "Solathigaram" highlights the BJP propagandist PR. Without understanding the history, Rama Srinivasan speaks about Israel and Palestine. He falsely claims that 'Israel' or 'Jews' have been mostly attacked throughout history, stating he is referring to 2000 years of history. He appears to lack knowledge of the true historical context. The Zionist movement, along with the United States and the British monarchy, created the State of Israel. Mr. PR. Rama Srinivasan, please read the history properly. Many Jews who study the 'Torah' support the people of Gaza and Palestine against the genocide perpetrated by the Israeli government. Investigate the agreement between Pfizer and the Israeli government; much of that information is redacted. Consider the deaths caused by the vaccines worldwide. The history of the 'State of Israel' spans just 173 years, as Israel was established in 1948 through the efforts of Zionists and the United Nations, backed by the United States and the United Kingdom. Therefore, Israel has an official history of only 75 years.

I urge the news media to refrain from encouraging support for Israel among the people of India, as not all Indians support Israel. The Indian government, however, appears to endorse the atrocities committed by Israel against Gaza, where Israeli forces are allegedly mass murdering Palestinian children. Both Israelis and Hamas play roles in this conflict. However, one cannot merely defend one side, as both are involved in mass violence against civilians, including the administration of COVID-19 vaccines globally under the guise of vaccination.

They seek to create a distraction by inciting bloodshed.
